AEROSPACE MACHINISTS INDUSTRIAL DISTRICT LODGE 751

TOM WROBLEWSKI, District President and Directing Business Representative
SUSAN A. PALMER, District Secretary-Treasurer

Reminder: South Park Bridge Closed - Use Alternate Route to Seattle Hall

On June 30, the current South Park Bridge closed permanently. This means that getting to the Seattle Union Hall - especially from the north end will require some additional planning. Please take the time to look at the map and review alternative routes before leaving for the Seattle Union Hall.

From the North: District 751 stewards and members coming south on I-5 won't be able to use the South Park Bridge to get directly to the Seattle Hall. Instead, continue south on I-5, take exit 158, the S. Boeing Access Road to Tukwila International Blvd, then turn right onto SR99, to the 14th Ave. S. exit. Turn left off the exit, take the next right and Union Hall is on the left.

From the South: For members living in Burien or White Center and working at Boeing Field, the South Park Bridge was an easy way across the Duwamish River. Once it's closed, they'll have to drive around to either the First Avenue South Bridge on the north, or head south along State Route 99 until they reach the intersection with Tukwila International Boulevard. From there they can turn north on East Marginal Way.

When heading out for monthly Local Lodge meetings, plan ahead an alternative route to the Seattle Union Hall (9125 15th Pl. S.)
