## A few things to know before you start:

---

**Make sure you have enough medication on hand**—You should have a 2-week supply of medication on hand while you wait for your new order to arrive. If necessary, ask your doctor for a second prescription for a 14-day supply that you can fill at a participating retail pharmacy.

**Order refills in minutes**—When you need a refill, call Medco toll-free at 1-800-841-2797 or visit us online at [www.medco.com](http://www.medco.com). Be sure to enter your member ID number and the prescription number.\*

**Get answers 24 hours a day**—Registered pharmacists are available around the clock if you have any questions about your prescriptions. Call Medco toll-free at 1-800-841-2797 and ask to speak with a pharmacist.

**There's no risk or obligation**—If you don't find that the Medco Pharmacy is more convenient or cost-effective, you can ask your doctor for a new prescription to be filled at a participating retail pharmacy the next time you need to purchase your medication.

\* If your faxed, online, or phone order exceeds \$100, we will not be able to process your order. You can choose to pay automatically in one of two ways: Have your credit card charged through Medco's automatic payment program, or use Medco's safe, convenient e-check, which automatically deducts your payment from your checking account. To enroll in either of these programs, go online to [www.medco.com](http://www.medco.com) or call Member Services at **1-800-841-2797**. You can also pay by credit card, money order, or personal check.
