Brothers and Sisters:

Your National Bargaining Committee is pleased to announce that we have reached a tentative agreement with UPS that brings enhancements to benefits and protections throughout the agreement. This 5-year tentative agreement was brought to conclusion through numerous negotiation dates with the Bargaining Committee relentless in their pursuit in an agreement that honors the work and dedication of the membership.

With key enhancements including language on job security and outsourcing, growth opportunities, benefits and other economic items, the agreement comes with items addressed that were brought by the membership, and includes the support of the National Bargaining Committee.

A highlight sheet outlining the enhancements throughout the agreement will be distributed throughout the membership by your Local and District Business Representatives in the coming weeks, and details on a ratification date will be released by your individual Locals and Districts, once finalized.
