Quarterly COLA Update

Calculations for the June 5, 2026, quarterly cost-of-living adjustment (COLA), based on the Consumer Price Index for February, March, and April 2026, resulted in \$0.24. After applying the \$0.24, current accumulated COLA since the last adjustment was rolled into base rates now stands at a positive \$0.32.

Under the IAM/Boeing Collective Bargaining Agreement, COLA is calculated each quarter using the federal government's Consumer Price Index to track inflation and helps to protect members' wages over time.
